**EAST FORK WILDERNESS
BOUNDARY DESCRIPTION**

All the East Fork Wilderness is located in Pope County, Arkansas, on the Ozark National Forest.

DESCRIPTION NOTES:

1. As the boundary follows Government-Private title lines, it is according to U.S. acquisition files and General Land Office Plats.
- 1a. The boundary is delineated on the U.S.G.S., 1:24,000 scale 7 1/2 minute topographic quadrangles: Solo and Lost Corner (modified for USDA Forest Service use). The acreage was obtained by digitizing the Wilderness Boundary from the Proceeding named quads, Using the Arkansas State Plane Coordinate System, North Zone.
2. As the boundary passes through U.S. Government lands, metes and bounds descriptions are used to the nearest +/- 5 Foot.
3. If the boundary indicated follows an Arkansas State Highway, the Right-of-Way line of said Highway is called for in the description in lieu of the "33-foot off-set from center line" indicated on the committee maps.
4. The terrain of the Ozark National Forest is characterized by short choppy hills. Narrow (12 foot) roads are often located at the base of these hills and the road cut bank or toe of till may extend 100 Feet + from the center line. In order to provide an easily described and maintained boundary, continue the safe use of the public road, and maintain the integrity of the Wilderness, the following definition is used in place of the "33-foot off-set from center line" indicated on the committee maps for Forest Roads used as boundaries:

MAINTENANCE-LIMITS (ML), as used in this document shall be defined as: the top of cut, toe of fill or limits of drainages of the existing roadway as presently constructed but shall not limit the maintenance or reconstruction of said roadway for the protection of the public health and safety so long as said existing roadway is included within the maintained or reconstructed roadway.
