**How to Determine the Status of a Layer in the Data Extract Tool**

1. Click on the Layers List icon in the menu at the top of the page.
2. From the Layers List, check the box next to Data Status and click on the arrow next to Data Status to expand the layers. To see the status of a layer, click on the box next to the name of the layer.

3. Click on the Legend icon to see how the various data status layers are represented.
