**BOUNDARY DESCRIPTION
GRANDE RONDE WILD AND SCENIC RIVER
WALLOWA COUNTY, OREGON**

This legal description and the attached map dated March 20, 2013, of the Grande Ronde Wild and Scenic River are on file in the office of the Director for DOI BLM and the Chief of the USDA Forest Service and are generally described in the Public Law 110-557. Where the boundary is described as a topographic feature, the actual location of the feature will control the approximate course identifying that part of said boundary. Township and Range lines, as well as Section and subdivisional corners established under the United States Public Land Survey System, shall determine the actual location of these portions of the boundary so described. Township, Range and section captions are descriptive and not exclusive. Section subdivision lines and corners will be established under the rules of the United States Public Land Survey System and the *Manual of Surveying Instructions*.

The mapping base for the Grande Ronde Wild and Scenic River is the Bureau of Land Management's Geographic Coordinate Data Base, the USFS Land Status Record System and other local corporate data sets.

Public Law 110-557 designated a 43.8 mile segment of the Grande Ronde River from the confluence with the Wallowa River to the Oregon-Washington State Line. The most accurate mapping information now available shows that legislated river segment to be 43.0 river miles. The herein described designated corridor has a calculated total area of 13,570 acres, for an average of 315.6 acres per river mile.
