

NATIONAL WILD AND SCENIC RIVERS SYSTEM

North Fork of the Smith Wild and Scenic River

Rogue River-Siskiyou National Forest

I hereby certify that the boundary description and map made part of this description herewith represents the location of the boundary of the North Fork of the Smith Wild and Scenic River on the Rogue River-Siskiyou National Forest.

Signed Roberta Romio Date 5/20/2009
ROBERTA ROMIO
Forest Land Surveyor
OR PLS 2878

I hereby certify and accept the boundary description and map of the North Fork of the Smith Wild and Scenic River on the Rogue River-Siskiyou National Forest as entered into the National Wild and Scenic Rivers System under Public Law 100-557.

Signed Mary Wagner Date JUNE 15 2009
MARY WAGNER
Regional Forester
Pacific Northwest Region
USDA Forest Service

DEFINITION OF INTENT
BOUNDARY DESCRIPTION
NORTH FORK SMITH WILD AND SCENIC RIVER

This legal description of the North Fork Smith Wild and Scenic River, as shown on the map dated November 5th, 2008, enclosed in this document, and made a part hereof, is generally described in Public Law 100-557 of October 28th, 1988, known as the Omnibus Oregon Wild and Scenic Rivers Act of 1988. This description evolved from, and is compliant with, the planning process described in the "Decision Notice and Finding of No Significant Impact of the North Fork Smith Wild and Scenic River Management Plan (Oregon Section Only) Environmental Assessment dated February 14, 2000".

The description attached describes approximate courses and distances of the centerline of the North Fork Smith River, and is for descriptive purposes only. The actual established boundary of the North Fork Wild and Scenic River is offset 1/4 mile from the rivers mean high water lines on both sides. The boundary does not vary in width or follow geographical contours. The Wild and Scenic segments are separated by specific features on the ground. The first Wild segment starts at the Oregon/ California border and proceeds to the intersection of the North Fork Smith River and Baldface Creek. From that intersection starts the Scenic segment of the river which proceeds to the intersection of the North Fork Smith River and Horse Creek. The second Wild segment begins from this point and continues to the headwaters of the North Fork Smith River. Unless otherwise specified, calls to a stream will be to the thread.

The bearing and distances shown in the description are Grid Bearings and Grid Distances, based on the North American Datum of 1983. The North Fork Smith Wild and Scenic River covers approximately 4,325 acres.

NORTH FORK SMITH WILD AND SCENIC RIVER

This legal description of the North Fork Smith Wild and Scenic River describes the approximate course of the centerline of the North Fork Smith River within the state of Oregon, starting from the Oregon and California border and ending at the headwaters. The actual established exterior boundary of the North Fork Smith Wild and Scenic River is offset 1/4 mile from the mean high water lines on both sides of the river.

The Wild and Scenic segments are separated by specific features on the ground. The first Wild segment starts at the Oregon/ California border and proceeds to the intersection of the North Fork Smith River and Baldface Creek. From that intersection starts the Scenic segment of the river which proceeds to the intersection of the North Fork Smith River and Horse Creek. The second Wild segment begins from this point and continues to the headwaters of the North Fork Smith River. Unless otherwise specified, calls to a stream will be to the thread. Transitional boundaries between Wild and Scenic segments will be along the thread of intersecting streams, then continuing on a line normal to the mean high water line on the opposite bank of the North Fork Smith River.

T. 39 – 41 S., R. 11 W., Willamette Meridian, Curry County, Oregon

The bearing and distances shown in the description are Grid Bearings and Grid Distances, based on the North American Datum of 1983.
