

## LETTER OF TRANSMITTAL

U.S. DEPARTMENT OF AGRICULTURE,  
FOREST SERVICE,  
Washington, D.C., October 1, 1969.

Hon. JOHN W. McCORMACK,  
*Speaker of the House of Representatives.*

DEAR MR. SPEAKER: We are pleased to send you herewith a copy of the river plan for a segment of the Rogue River in Oregon. This river area is a unit of the National Wild and Scenic Rivers System established by the Wild and Scenic Rivers Act of October 2, 1968 (82 Stat. 906-918). It is located in the Siskiyou National Forest.

Pursuant to subsection 3(b) of the act, the enclosed river plan includes the classification, boundaries, and development plan for the river area, which have also been submitted for publication in the Federal Register.

This plan covers that part of the river within the Siskiyou National Forest, from Lobster Creek Bridge upstream to Marial at the east boundary of the national forest. By agreement with the Department of the Interior, as provided for in subsection 3(a) of the act, that portion from Marial upstream to the mouth of the Applegate River is covered by a similar plan prepared by the Bureau of Land Management. Planning of the two sections has been closely coordinated, and this coordination will continue in future administration of the river.

If you have any comments or questions regarding this river plan we will be pleased to hear from you.

Sincerely,

EDWARD P. CLIFF.
