NATIONAL WILD AND SCENIC RIVER

South Fork Clackamas River

Designated March 30, 2009

by the

Omnibus Public Land Management Act of 2009

Public Law 111-11

This description and the accompanying final map are based on the Congressionally approved 4.2-mile segment of the "South Fork Clackamas River" for the creation of the South Fork Clackamas River Wild and Scenic River contained within the Omnibus Public Land Management Act of 2009 (Public Law 111-11) dated March 30, 2009. This description and the accompanying final map shall govern all boundaries of the Wild and Scenic River and shall be considered as if contained in the original legislation, Public Law 111-11. In the case of any conflicts found between the final map and this description, the final map shall govern the resolution thereto.

The mapping base is the U.S. Forest Service (USFS) Land Status Record System and corporate data sets. Except where specified, all bearings, distances, elevations, and latitudes and longitudes in this document are derived from Geographic Information Systems data, based on the North American Datum of 1983 and the National Geodetic Vertical Datum of 1929. The latitudes and longitudes reported for certain corners and angle points in this description are provided to assist in the location of described features. Where called for, physical features will control over bearings and distances, and latitude and longitude.

Where the boundary is described as a topographic feature, the actual location of the feature will control the course identifying that part of said boundary. Where the boundary is described as an offset, the physical location of the feature is based on the location at the time of acceptance.

Wild Segment: "The 4.2-mile segment of the South Fork Clackamas River from its confluence with the East Fork of the South Fork Clackamas to its confluence with the Clackamas River, to be administered by the Secretary of Agriculture as a wild river." (Public Law 111-11, Sec.1203(a) (1) (171))

A parcel of land, situated in the state of Oregon, County of Clackamas, and being a portion of the following sections (secs.) of the Public Land Survey System:

Willamette Meridian, Oregon
