BOUNDARY DESCRIPTION
Skagit River System
SKAGIT NATIONAL RECREATION RIVER
SAUK NATIONAL SCENIC RIVER
CASCADE NATIONAL SCENIC RIVER
SUIATTLE NATIONAL SCENIC RIVER

The boundary is the exterior line that encompasses the parcels included in this description. All cited Congressionally Designated or other Special Management Area, Mineral Claim, or Sectional land boundaries, or other calls to or along a senior boundary line will be considered as any other controlling monument and will prevail over any bearing or distance cited within this description. Calls to the margin of a road or other corridor shall be to the limit of the right of way. Calls to the centerline of a road or other corridor shall be to the physical centerline existing on the ground. Nomenclature of sectional subdivisions or sectional subdivision corners according to Bureau of Land Management standards and practices is not meant to preclude the acceptance of local or previously established boundary lines, monuments, or other indicia of land tenure that may exist in the vicinity of theoretical sectional subdivision lines or corners. Subdivision of Government Lots into fractions will be by equal area methods, with the exterior lines controlling interior parallel placement, unless prior surveys exist. This description, along with the final map, dated November 3rd, 2009, shall be considered as if contained in the original legislation, P.L. 90-542, as amended, of October 2, 1968, which created this Wild and Scenic River, and shall govern all boundaries of the Area. Base mapping used to create the attached final map is from the USDA Forest Service Land Status Record System and other corporate data sets.
